

SSD Utility Release Notes

Version: 5.5.0013 Release: November 18, 2021

This SSD Utility V5.5.0013 is only compatible with KIOXIA brand SSDs (EXCERIA PLUS Portable SSD).

Outline

This is an update release of SSD Utility, with the following enhancements:

Bug fixes and reliability enhancements.

Secure Erase is not supported.

Firmware update function is not supported.

Known Issues

EXCERIA PLUS Portable SSD which connected to USB2.0 port cannot be recognized.

When Dashboard is selected on Overview tab, USB interface speed is not shown on Interface pane.

When maximum password retries exceeded at the time of Remove Password, the master password will be able to input. However, password is not deleted even if correct master password is inputted.

Even if German, Spanish, French, or Russian is chosen, some sentences about Password Protection are shown in English.

On some laptops with dual Intel® & NVIDIA graphics, SSD Utility may crash. This can be fixed by updating the Intel & NVIDIA drivers.
